

SHELL V-POWER NITRO+ ADDITIVE

MULTIFUNCTIONAL GASOLINE ADDITIVE PACKAGE FOR PUERTO RICO

APPLICATION

Gasoline performance additive formulated exclusively for Shell.

KEY PERFORMANCE BENEFITS

With patented technology, Shell V-Power NiTRO+ provides four levels of defense (against performance-robbing gunk, wear, corrosion and friction). Shell V-Power NiTRO+ is engineered with a friction-fighting additive for improved performance. The improved formulation of Shell V-Power NiTRO+ combines deep cleaning power with new SmoothGlide Technology, which reduces performance-robbing friction, to help improve efficiency.

TYPICAL CHARACTERISTICS

- Appearance: Amber liquid
- Density @ 15°C, g/ml: 0.919
- Flash Point °C (PMCC): 42 min.
- Viscosity @ 40°C, mm²/s: 16.0

ADDITIVE REGISTRATION AND CERTIFICATION

The exclusive Shell additive formulation is registered with the EPA and certified as meeting the TOP TIER Gasoline Detergent Standard.

EPA Registration

Shell V-Power NiTRO+ Premium Gasoline formulation meets EPA requirements and is registered with the EPA.

As our most technically advanced fuel, Shell V-Power NiTRO+ Premium Gasoline, contains the highest concentration of our formulation. With 93 times the keep clean performance of low-quality fuel, Shell V-Power NiTRO+ Premium Gasoline provides total engine protection and delivers unsurpassed

protection against gunk, unbeatable protection against corrosion and our best protection against engine wear and friction so your engine runs efficiently.

TOP TIER Certification

Some of the world's top automakers –Audi, BMW, GM, Honda, Toyota and Volkswagen– believe that fuel quality in the U.S. is declining and agree that carbon deposits on intake valve and fuel injectors can keep engines from achieving optimal performance. To try to raise the bar on fuel quality, these auto manufacturers designated a voluntary standard for gasoline detergency known as the TOP TIER Detergent Gasoline standard. The TOP TIER Detergent Gasoline Standard goes beyond the government standards for detergency in gasolines.

All grades of Shell Nitrogen Enriched Gasolines, including Shell V-Power NiTRO+ Premium Gasoline, are certified as meeting the TOP TIER Gasoline Detergent Standard.
